OBJECTIVE

To Acquire A Challenging Position In An Environment Where I Can Best Utilize My Skills And Knowledge to constantly Develop Innovative Applications that can Help Millions in making their life easier

SKILLS

- Python
- SQL(basics)
- Natural language processing
- Data visualisation-Power Bi
- Problem Solving
- Deep learning
- GEN AI
- Public Speaking
-

INTERESTS

- Artificial Intelligence
- Automotive Industry
- Data Science

LANGUAGE

- ✓ English
- ✓ Malayalam
- ✓ Tamil

EDUCATION

- 📍 **BS ABDUR RAHMAN CRESCENT UNIVERSITY** 2026
Btech Artificial intelligence and Data science
CGPA - 8.5
- 📍 **Don Bosco Matriculation Higher secondary school** 2022
score - 91.5

PROJECTS

- 📍 **Sentiment Analysis**
Developed a sentiment analysis project utilizing machine learning techniques to analyze and classify text data into positive, negative, or neutral sentiments. Implemented natural language processing algorithms and trained models to accurately interpret and classify sentiments, contributing to better understanding customer feedback and market trends
